To: Each Supervisor

From: Dave Lambertson
Director 

Subject: **ANNUAL CLEAN FUELS REPORT**

The Board of Supervisor's "Clean Fuels" policy was adopted on January 10, 1995. The policy requires that by March 1 of each year, departments report on the composition of their fleet and their progress in acquiring clean fuel vehicles.

Attachment 1 is the 2005 report, which includes data on all of the County departments and vehicles for which ISD provides automotive services. County Departments maintaining their own vehicles (Sheriff, Public Works, and Fire Department) will report separately.

The ISD-maintained motor vehicle fleet includes 3,471 powered vehicles. Currently, 459, or 13.2% of these vehicles are alternative fuel vehicles (AFV's). The report shows that County departments purchase a variety of alternative fuel types including natural gas, bi-fuel, flex-fuel, propane, hybrid, and electric vehicles.

Our report does not include a category for gasoline-powered vehicles that are considered low emission vehicles (LEV's) and ultra-low emission vehicles (ULEV's) by the California Air Resources Board. This information is being added to our fleet database, and we anticipate including it in the 2006 annual report.

Attachment 2 is a brief summary of the various types of AFV's available today. Since the implementation of the Clean Fuels policy in 1995, there have been significant changes in the fuel and automotive industries.

Please feel free to contact me or your staff may contact Daphne Bell, General Manager, Purchasing and Contract Services at (323) 267-2109 or via e-mail at dbell@isd.co.la.ca.us.
